Good Digestion.

"Give us this day our daily bread" and good medicine to digest it, is both reverent and human. The human stomach and liver are fruiffn! sources of life's comforts; or, disordered and diseased, they tingle misery along every nerve and through every artery. The man or woman with good digestion see beauty as they walk, and overcome obstacles they meet in the routine of life, where the dypeptic sees only gloom and stumbles and growls at even imaginary objects. The world still needs two or three new kinds of medicine before death can be perfectly abolished; but that many lives have been proleiged, and many sufferers from Liver disease, Dyspepsia and Headache, have been cured by Merratil's Herratist, is no longer adoubt. It cures Herratist, is no longer adoubt. It cures Herratist, is no longer adoubt. It cures Herratist, is no longer adoubt. An Astonishing Fact.

An Astonishing F.ect.

A large proportion of the Americar people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottled for 10 cents to try. Three doses will relieve the worst case.—Positively sold by all Druggists on the Western Continent.

WHITE

Is the Easiest Selling,

The Best Satisfying, SEWING MACHINE.

TS introduction and world-renowned reputation was the death blow to high priced machines. There are no recondland White Machines in the market. This is a very important matter, as it is a well known and undisputed fact that many of the so-called first-class machines which are offered so cheap nowadays are those that have been repossessed (that is, taken back from customers after use) and rebuilt and put upon the market as new.

The White is the peer of any Sewing Machine now upon the market. It is much larger than the family machines of the Singer, Howe and Weed make. It costs more to manufacture than either of the aforesaid machines. Its construction is simple, positive and durable. Its workmanship is unsurpassed.
